PROFESSIONAL SUMMARY

Passionate Full Stack Developer skilled in building responsive, user-friendly web applications and robust backend APIs using modern technologies including JavaScript, React, Java, and Spring Boot. Strong problem-solving skills with a focus on clean code, performance, and usability. Eager to contribute to real-world projects and grow in a professional environment.

SKILLS

- Frontend:** HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), React.js
- Backend:** Node.js, JavaScript, Python, Java (Spring Boot / Spring Security), Django / DRF
- Database:** MySQL, MongoDB, PostgreSQL
- Design:** UI/UX, Figma, Corel Draw
- Tools:** Git, GitHub, Vite, VS Code, Postman, Vercel, Docker
- Other:** REST APIs, Responsive Design, Debugging, Environment-based Config

PROJECTS

Employee Management REST API

Java • Spring Boot • Spring Security • MySQL • REST API • Docker | github.com/bigdammy-tech/employee-java

- Built a full backend REST API for managing employees, departments, and users
- Implemented user authentication and authorization with Spring Security
- Integrated email notification system using Gmail SMTP
- Connected to MySQL database using Spring Data JPA
- Containerized with Docker and configured for secure cloud deployment

Ejire Cosmetics

Java • Spring Boot • PostgreSQL • HTML/CSS/JS • Paystack | ejire-cosmetics.netlify.app

- Built and deployed a full e-commerce platform for a beauty products reseller business
- Backend built with Spring Boot and PostgreSQL, deployed live on Render
- Integrated Paystack payments with a secure async/callback flow
- Built a 200+ product catalogue with cart, stock validation and live search

CodeAlpha E-commerce Store

Python • Django • Django REST Framework • JavaScript | github.com/bigdammy-tech/CodeAlpha_EcommerceStore

- Built as Task 1 of the CodeAlpha Full Stack Development virtual internship
- Django + DRF backend API paired with a vanilla JS frontend
- Product catalogue, cart, and order flow built against the REST API

Responsive Web Application

HTML • CSS • JavaScript | Live: assistant-4ryeqp8w4-zizats-projects.vercel.app

- Built a fully functional responsive web application using HTML, CSS, and JavaScript
- Demonstrates strong understanding of frontend development fundamentals
- Deployed live on Vercel

BeautyOfBeaches

HTML • CSS • JavaScript

- Single-page responsive site cataloguing beaches by zone (North, South, East, West)
- Built modal dialogs, a gallery, and illustrative flight/bus booking flows
- No backend required — all data modelled as JSON-shaped JS objects

Portfolio Website

HTML • CSS • JavaScript | github.com/bigdammy-tech

- Personal portfolio to showcase full stack projects and skills
- Built using HTML, CSS and JavaScript — fully responsive design
- Pushed to GitHub and hosted on GitHub Pages

EDUCATION

Advance Diploma in Software Engineering (ADSE)

Aptech Computer Education, Oshogbo — In Progress

Professional Certification in Software Engineering

Aptech Computer Education, Oshogbo — Expected April 2025

PROJECT EXPERIENCE

- Built Employee Management REST API using Java, Spring Boot, MySQL and Spring Security
- Deployed a full e-commerce platform (Ejire Cosmetics) with Spring Boot, PostgreSQL and Paystack
- Built a Django + DRF e-commerce store (CodeAlpha Full Stack Development internship)
- Built multiple web applications using JavaScript and React
- Developed responsive UI designs using HTML, CSS and JavaScript
- Created a personal portfolio website using HTML, CSS and JavaScript
- Containerized Java backend applications using Docker for deployment

CERTIFICATIONS & TRAINING

- Responsive Web Design – W3Schools
- Responsive Web Design Certification – freeCodeCamp (HTML, CSS)
- Full Stack Development Training (Frontend & Backend – Java, MongoDB, React) – Aptech / Online
- Full Stack Development Virtual Internship – CodeAlpha

ADDITIONAL INFORMATION

- Fast learner and team player with strong interest in full stack web development
- Available for internship, junior developer roles, or freelance projects
